INSTRUCTIONS FOR THE APPLICATION FOR DISASTER REMISSION OF TAXES

EARTHQUAKE ON OCTOBER 15, 2006

This application is only for real property taxes paid, or due. In all cases, the amount of remission will not reduce the total annual taxes to less than the minimum tax for the parcel. If you are currently paying the minimum tax, do not complete this form, as no remission will be calculated. The remission calculation will be based on the balance of the tax year, October 15, 2006 to June 30, 2007.

Also, this is a remission on real property taxes. The Real Property Tax Office does not assess, or tax, improvements to your property such as retaining walls, fences, landscaping, and driveways. Damage of this type would not result in any remission of taxes.

Steps to complete the application:

1. Fill in the Tax Map Key Number of the parcel. This can be obtained from your last tax bill or assessment notice.
2. Fill in the name and address of the Claimant along with their telephone numbers. Telephone numbers are very important so that the tax office or appraiser can contact you if information is missing, or if an inspection is necessary.
3. Fill in the type of disaster (Earthquake) and date (October 15, 2006).
4. In your own words, describe exactly what was damaged. Then in the section listing the major building components, fill in the approximate percentage of each category that was damaged. If a particular component was not damaged, leave it blank. For example, if half of the windows in the house were broken you would put 50% in that box.
5. Sign, date and mail in the application by June 30, 2007.
